

Electric Car Charging Points

No Apps required. Just plug and charge.

Tan yr Allt is pleased to be able to offer Electric Car Charging Points.

We have two 16A (3.6kW) untethered charging points. One point is for guests staying in Y Granar, and the other point is for guests staying in the Hygge Hut. Both are type 2, and cars can be charged at any time of the day or night.

Guests will need to ensure that they have a working cable which can be plugged into the charger point.

You can expect that fully charging your car battery may take overnight, depending upon your car.

The time required to go from fully discharged to fully charged is calculated by:

$$\text{Battery size (kWh)} \div 3.6 \text{ (Charger power kW)} = \text{Charging time (hours)}$$

Prices

For your stay, the price of supplying the electricity to charge your car as follows.

Size of car	Cost
Small (8kWh-20kWh)	£5.00
Medium (21kWh-50kWh)	£10.00
Large (51kWh-85kWh)	£20.00
Very Large over 86kWh	£20.00

These prices are subject to change without notice.

Y Granar EV Point

For Y Granar, the EV point is located in the lay-by next to the entrance gate to the walkway.

Hygge Hut EV Point

For the Hygge Hut, the EV point is set back from the parking space.

The car parking space is 2.5 meters from the EV point. It is important that your cable is long enough to reach the EV point, which is mounted on the stable outside wall.

Please ensure your that your cable is long enough to reach, or that you bring an extension cable.
